The mining industry of these states is working on a larger scale than ever before. Production, profits and dividends have shown remarkable growth. Opportunities are constantly being offered investors by the mines of these great states, opportunities to make a fortune from a small investment. Western Mining and Financial Review is an independent monthly, edited by well-known writers, giving reliable news of the mining industry of these great states. It advises its readers of the exceptional money-making opportunities in the mining, oil and industrial field. It also furnishes, without cost to subscribers, unbiased information regarding any investment in which they are interested. Subscription \$1.00 per year. A three month trial subscription will be sent free on request. Send for it today.

Your Income Tax Returns
The Henry Waterhouse Trust Co., Ltd., has opened a department for the assistance of its clients in making out Federal Income Tax Returns and other documents required under the new Federal Revenue Laws. The new law assesses all incomes over One Thousand Dollars for bachelors; Two Thousand for married men. This department will be under the able direction of MR. PHILIP F. LEE, head of our bonding department. Mr. Lee has had a wide experience in work of this character through his former association with mainland financial institutions.

Business And Financial News

MORE ACTIVITY LOOKED FOR IN SUGAR MARKET

By CZARNIKOW-RIONDA CO.
NEW YORK, N. Y., Sept. 28.—A very quiet and inactive market has prevailed during the week. Of the two transactions recorded during this period, the first consisted of 1,000 bags prompt shipment (Cuba), purchased by an operator at 60¢, which temporarily raised the spot price 12¢ per pound to 7.92¢, and the other took place yesterday, when 500 bags of prompt shipment (Cuba) were sold to a New York refiner at 5.75¢, c. f., thereby returning the spot quotation to last week's figure of 6.90¢ basis 95°.

The reappearance of refiners as buyers, after an absence of several weeks, was due to a statement issued by the International Sugar committee suggesting that, until further notice, United States refiners should not attempt to keep on hand at their respective refineries more than a 10 days' supply of raw sugar, whilst hitherto they had been requested to refrain from purchasing any raws at all. The market, therefore, is likely to become a little more active from now on, and until the limited amount of unsold stocks of Cubas in the island are exhausted.

The current sugar campaign of Cuba is now practically over, with a total visible production, according to Messrs. Willett & Gray, of 2,981,322 tons up to September 22. These well known statisticians have recently considered it necessary to raise their original estimate of 3,000,000 tons to one of 3,050,000 tons, as more closely approaching the probable total output of the present crop.

As regards the coming crop, it is difficult as yet to make any reliable forecast. While drought has affected the anticipated output in several sections, the cyclone which early this week swept over a portion of the island and delayed the loading of many steamers at the principal north coast shipping ports, fortunately did not cause any material damage to the cane fields.

Business in Cubas and refined sugars with European countries continues at a standstill, but during the week reports were received here from London stating that the Royal Commission on the Sugar Supply had secured about 150,000 tons Javay, for shipment during the balance of this year, at a price which is believed to be equivalent to around 3¢ f. o. b. Java.

The receipts for the week at the three Atlantic ports were 28,156 tons, compared with 21,452 tons last year and 49,551 tons in 1915.

LEDGE OF \$10 A TON ORÉ AT MADERA MINE

Demand for shares of the Madera Gold Mining Co., of which Robert Shingle is president, is due to a report from the mainland that is running a drift down to the 600 and 800 levels, a ledge of \$10 a ton ore has been struck. News of this advance caused the Madera stock to advance several cents on Saturday and yesterday sales were made at 34 cents, with 35 asked. There is very little of the stock offered for sale, it is said. A letter from one interested in the mine has this optimistic statement: "Madera is no longer a prospect, but a mine." The Madera gold mine is located in Madera Gulch, Cal., and much of the stock of the company is held in these islands.

CITY BUILDING FORGING AHEAD WEEK'S PERMITS TOTAL \$81,842

Building permits for the past week showed a decided increase over the same week in September, while mortgages and deeds fell below the average figure. As forecast at the beginning of the month by Henry Freitas, the building inspector, the building boom is gaining headway every day. While the number of permits issued is not as large as usual the total amount of money involved is slightly more than last week. Figures in details for the deeds, mortgages, leases and building permits of the past week are as follows:

		Deeds	Mortgages	Leases	Building Permits				
		No.	Value	No.	Value	No.	Value		
Oct.	5.	13	\$27,560.00	7	\$ 4,285.33	5	\$ 271.00	3	\$ 1,200.00
"	6.	7	2,500.00	4	2,751.00	"	"	4	26,950.00
"	8.	9	12,826.62	4	5,570.00	2	800.00	6	38,700.00
"	9.	7	19,584.25	5	6,358.00	1	5.00	6	9,742.50
"	10.	6	3,371.00	1	600.00	1	50.00	2	3,575.00
"	11.	2	705.00	3	6,150.00	"	"	1	1,675.00
Totals		44	\$66,526.87	24	\$25,714.33	9	\$1,106.00	22	\$81,842.50

30,000 TONS OF SUGAR STILL TO BE SHIPPED

Thirty thousand tons of sugar still remain on Hawaii for shipment to the mainland due to the prolonged drought. Many of the plantations are being delayed in completing their grind on account of lack of rain to flume the cane from the fields to the mills, and even should heavy rains come now it will be difficult for these concerns to complete their work before November. The result will be that December will find a great deal of sugar still left in the islands for shipment and it is estimated that even at that late date there will be from 20,000 to 35,000 tons on the five islands yet to be sent away. Continuance of the Matson line steamers under charter by the government to these islands even after they have been taken over by the federal shipping board will somewhat simplify the problem of shipment but will not solve it, and sugar men fear a congestion of shipments about December 1.

Work on the improvements being made in the mill of the McBryde Sugar company at Elele, Kauai, is rapidly nearing conclusion, according to reports from the Garden Isle. A new standard triple effect, a large 12-foot vacuum pan, four new crystallizers and a new juice heater are being installed to put the plant on a modern basis in preparation for next year's crop. The work is being done by Catton, Neill & Co.

LOUISIANA AT SEA.

NEW ORLEANS, La., Sept. 18.—The Louisiana sugar industry is still at sea regarding the position in which it will finally find itself as a result of the measures to be adopted by the food administration at Washington. There is a wide difference of opinion as to the desirability of the food administration, attempting to fix a scale of prices, owing to the fact that the grades made by the various Louisiana factories widely differ.

As an instance of the difficulties which will arise in this connection, it is pointed out that ordinarily Louisiana prime yellow clarified sells at a fraction lower than standard granulated, but that at times the demand for that grade falls off to such an extent that its value falls to a test basis. Such an instance occurred last December. On the other hand, there are times when the demand for clarified is so great that they sell above the price of standards granulated. This happened a few months ago, and has often occurred when clarified became scarce in midsummer.—Facts About Sugar.

KILAUEA ENDS YEAR

The Kilauea plantation has finished grinding with a crop of 5920 tons, which is just a little short of the estimate. The unusually low sugar content of the juice, due doubtless to climatic conditions cut into the crop badly.

On the ground of non-support, Circuit Judge Heen yesterday granted Mrs. Annie Gorman a divorce from Percy Gorman.

HEAVY RAINS HELP GROWING CROPS ISLAND OF HAWAII

Showers were more frequent and cane showed a decided improvement in most sections of Hawaii during the past week, reports the weekly weather and crop bulletin of the government weather bureau. Continuing it reads: "Good rains were received in the Hilo districts, but more is needed. On Maui only light showers were received which were not sufficient to wet the ground to any depth. Light scattered showers occurred generally on Oahu and Kauai. By islands, the average rainfall for the week was as follows: Hawaii, 1.14 inches; Maui, 0.21 inch; Oahu, 0.43 inch; Kauai, 0.69 inch.

At the local office of the weather bureau in Honolulu the mean temperature for the week was 78.5° above normal. The highest temperature recorded was 84.1° on the 23rd, and the lowest, 70.1° on the 27th. The total rainfall was 0.31 inch or 0.93 above normal. The mean relative humidity ranged from 62 to 68 per cent; weekly average, 65.4. There were four clear and three partly cloudy days. The prevailing wind direction was northeast, and the average velocity was 10.9 miles.

Local conditions, from information furnished by correspondents, were as follows: Honolulu, Hawaii.—The first part of the week was hot and dry, the last much cooler with heavy rains in some parts of the lower, middle and upper lands. The 1919 crop is in fine condition and the cane a dark green color. Fine weather for clearing timber land to be planted next year. More rain is needed. The streams are the lowest in years.

Ponahawai, Hawaii.—The rainfall of 1.38 inches was very much needed. The prevailing showery weather at night and the sunny days are rapidly restoring the natural color to growing crops and brightening the prospects for planters and farmers.

Volcano observatory, Hawaii.—Showers and drizzle during the afternoon and night. Fresh and gusty N. E. trade winds prevailed. Drought situation improved.

Kapoho, Hawaii.—Cloudy weather with gentle northeast winds. Haiku experiment station, Maui.—Light nightly showers are proving very favorable for limited plantings of beans in the Haiku district. However, the moisture has not yet penetrated sufficiently for the planting of potatoes and other deep rooted crops.

AD CLUB WILL STAGE LIBERTY LOAN RALLY

A great Liberty Loan rally is to be the feature of the Ad. Club luncheon next week. Everybody is invited. It will be Ladies' day and the general public day. Special speakers have been selected by the Liberty Loan committee. General Visser has promised that a band from the army will be assigned for the musical program. Other features will be added so as to make the whole affair appropriate as an expression of the determination of men, women and children to stand by the government financially. The day is set for Tuesday noon instead of Wednesday in order to accommodate guests who plan to leave on the Matsonia Wednesday.

BABY SHOP

On Thursday, October 18, Honolulu will have a new Baby Shop, at 1190 Fort street, near Beretania. Complete lines of infants' wear and accessories will be stocked; and everything in the way of dainty bonnets, dresses and coverings will be on display. Also, there will be on display a large showing of fine lingerie, negligees and other pretty hand-made Xmas gifts.—Adv.

DAILY REMINDERS

NEW BLANKS FOR COMPENSATION RECEIVED HERE

A new series of blanks for making out applications for compensation for injuries received by civil service employees while on duty have been received at the Honolulu customs house. Under the right to compensation for personal injuries of civil employees of the United States passed in September, 1914, which superseded the act of May 30, 1918, any such employee who sustains a personal injury while in the performance of his duty is entitled to receive reasonable medical, surgical and hospital services and supplies to be furnished by U. S. medical officers and hospitals.

The compensation starts the day after the injury. In case of death the compensation goes to the heirs. The compensation payable during total disability is at the rate of two-thirds of the injured person's monthly pay, and cannot exceed \$6.67 a month.

No compensation is payable if the injuries are caused by willful misconduct, or by intoxication.

All civil employees of the government are urged to seek first aid treatment immediately after they are injured, and are required to report all injuries. Claims must be made promptly.
